

## BC Level Classification

### What's your skiing/riding abilities?

Can you ski/ride in trees or between rocks?

Can you ski/ride steep terrain?

Can you ski/ride any snow condition (icy, crusty, crud, powder or uneven)?

If your answers are all “Yes,” your skiing/riding level should be qualified for BC Kitsune tour. For BC Kitsune or Kamoshika tour, you must ski/ride any condition (you should be qualified for BC Kitsune if you have done “heli-ski/ride” or “cat-ski/ride” in North America, New Zealand or Europe.)

### How many times you've done backcountry tours before?

Only once or twice → **BC Usagi** will be the most suitable tour for you.

This is my first tour → **BC Usagi** only if you are confident skiing/riding in powder.

or

**Off-Piste Advanced** if you are confident skiing/riding in powder.

or

**Off-Piste Intro.** or **Powder Clinic** offered by Evergreen International Ski School if you are not confident skiing/riding in powder.

### What are you expecting for tours with Evergreen?

Evergreen's backcountry tours are designed for skiers / snowboarders who wish to hike up 3 to 4 hours (broken up in the day) to access the terrain where Evergreen BC guides cautiously select after evaluating all the weather data and avalanche conditions as well as apprising fitness and ability level of the group.

If you are interested in earning more runs and less hikes, please consider our **Off-Piste** tours. It's accessing the goods with the lift services of the resorts and then ski / ride the excellent “side-country” terrain.

**Powder Clinic (First Tracks Private)** offered by Evergreen International Ski School will be the best option for you if you would like to develop your powder skiing / riding skills.
